Strahinja Radić

Full-stack Developer

Marička 26
11090 Belgrade, Serbia
064/1597-406
contact@strahinja.org

SUMMARY

Full-stack developer with a wide programming skill set. Started coding with Basic in the 1990s and learned a number of programming languages and frameworks, up to and including modern technologies, like Vue.js, Angular 2, Typescript, JavaScript, PHP and MySQL. My goal is to work on interesting and challenging projects in existing and/or new technologies. Current focus: Vue.js.

EXPERIENCE

Carvisor (Eauto) / Frontend developer

OCTOBER 2016 - NOVEMBER 2018

Car trading network solution. The website has since changed and is currently (August 2019) no longer available to the public. Technologies: Angular 2 (Typescript, HTML5, CSS3).

https://carvisor.co.nz

SpreadGood / Web developer

MAY 2014 - JUN 2014

A donation website that improves your mood with famous quotes. The website is not available online anymore. Archived screenshot at: http://strahinja.org/img/portfolio/spg-lg.png

Technologies: jQuery (JavaScript), PHP, MySQL

http://spread-good.com

Mathewerkstatt.at / Web developer

MARCH 2013

Website of an independent mathematics school. The request was to make the existing static content editable by a web administrator.

Technologies: Zend Framework (PHP), MySQL

http://www.mathewerkstatt.at/
